SUBJECT INDEX

Subject index

(C) correspondence
(E) editorial
(M) meeting report
(P) proceedings
(S27) supplement 27
(S28) supplement 28

ABUSE: before and after birth, 411(M)
ACCIDENT AND EMERGENCY DEPARTMENT: inner-city, analysis of telephone calls, 324
ACUPUNCTURE: can it have specific effects on health? A systematic review of acupunture antiemesis trials, 303
ADDENBROOKE'S HOSPITAL: art and murals, 720
ADHESION MOLECULES: in melanoma more than just superglue?, 393
ADVANCE DIRECTIVES: from the perspective of the patient and the physician, 568
ADVICE BOOKLET: and personal child health record programme in Tuzla, Bosnia Herzegovina, 202
AEROBIC FITNESS: measurement and interpretation in children: current issues, 281(P)
AFGHANISTAN:
medical support, 419(C)
medical textbooks and journals for? A visiting doctor's perspective, 121(E)
AFRICAN MOTHER: and macroeconomics, 361(E)
AFRO-CARIBBEAN IMMIGRANTS: schizophrenia in, 253, 480(C)
AGGRESSION:
against doctors, 300(C)
against doctors, a review, 69
AIDS:
as history, 531
related malignancies, 35(P)
ALCOHOL ABUSE: and stage of HIV disease in intravenous drug abusers, 389
ALCOHOL INTAKE: low, ought it to be promoted for health reasons?, 123
ALCOHOLISM: Rev Harold Nelson Burden and Katherine Mary Burden: pioneers of inebriate reformatories and mental deficiency institutions, 205
ALPHA-INTERFERON: treatment of cavernous haemangioma with Kasabach–Merritt syndrome, 55(P)
ALTEPLASE: versus streptokinase in acute myocardial infarction, 427
ALTERNATIVE MEDICINE:
ancient and its modern survival, Aristophanes' *Wealth*, 651
quack cancer cures or scientific remedies, 543
AMENORRHOEA:
secondary, 220(P)
secondary after total body irradiation in prepuberty, 113(P)
ANAEMIA: surgical treatment in malignant melanoma, 646
ANAESTHESIA:
for carcinoid syndrome, 279(P)
a celebration of women in 1894–1994, 177(C)
delayed arrival: from Davy (1800) to Morton (1846), 96(P)
for endo-bronchial laser surgery, 278(P)
epidural and urinary dysfunction, 727(C)
for paraplegics, 277(P)
for rare and difficult cases, 277(P)
ANALGESIA: for venous cannulation, 237(C)
ANASTOMOSIS: primary with resection in necrotizing enterocolitis, 385
ANCA: associated with Behçet's disease, 47(P)
ANCIENT EGYPT: identity and work of the surgeon, 467
ANOGENITAL LESIONS: lichen sclerosis in women, 694
ANTENATAL CARE: risk factors for HIV infection overlooked, 180(C)
ANTENATAL DIAGNOSIS: of renal tract anomalies: has it increased the sum of human happiness?, 155(P)
ANTI-EPILEPTIC DRUGS: does early treatment alter the prognosis for remission of the epilepsies, 245
ANTICARDIOLIPIN ANTIBODIES: and cardiovascular disease, 119(C)
ANTICOAGULATION: in venous thrombosis, 624
ANTIOXIDANTS: herbal preparations, 540(C)
AORTIC ARCH THROMBOSIS: in a neonate with coarctation exposed to cocaine *in utero*, 524
AORTIC DISSECTION: presenting as a neurological emergency, 271
APPENDIX: primary adenocarcinoma, 111(P)
ARISTOPHANES' *WEALTH*: ancient alternative medicine and its modern survival, 651
ART: in hospitals, 482(E)
ASBESTOS EXPOSURE: and asbestosis, 240(C)
ASCORBATE: role in the brain: therapeutic implications, 241(E)
ASPERGILLOMA: recurrent of the frontoethmoid sinus in a non-immunocompromised patient, 165(P)
ASTHMA: patient's view, 178(C)
ATRIAL MYXOMA: presenting as a pleural effusion and raised erythrocyte sedimentation rate of unknown cause, 585
AUDIT: and clinical research, 480(C)
AUTOIMMUNITY: psoriasis and T cells, 315, 600(C)

BABYLON: diseases of: an examination of selected texts, 135
BAILLIE'S ATLAS: Sam Johnson's lung not in, 237(C)
BARGE, PROFESSOR: anatomy lesson, 649
BEHAVIOURAL PROBLEMS: in disabled children, 57(M:P)
BEHÇET'S DISEASE: ANCA association, 47(P)
BENGALIS: elderly, prevalence of eye disease in Tower Hamlets, 23
BENZENES: exposure in Royal Naval submarines, 286(M:P)
BLADDER EXSTROPHY: from childhood to adult life, 39(P)
BLADDER OUTFLOW OBSTRUCTION: intraprostatic cyst as cause, 708
BLEEDING TIME: evaluation of the effect of colloid (Haemaccel) on in the trauma patient, 101(P)
BLOOD CIRCULATION: and William Harvey, 178(C)
BLOOD PRESSURE: life style as determinant, 484
BONE MARROW TRANSPLANTATION: cutaneous presentation of *Fusarium solani* infection in recipient, 647
BONE MINERAL DENSITY:
measurement, 599(C)
measurements, are they worthwhile?, 457

WORDS:
meaning in the new health service, 120(*P*), 240(C)
meaning of, 360(C)
WOUND HEALING: to fibrosis immunological inter-relationships, 294(M:*P*)

NOTES FOR CONTRIBUTORS

The *Journal* is a benefit of membership of the Royal Society of Medicine and through it we aim to offer Fellows something stimulating or instructive or entertaining each month (preferably all three). It has also won a large readership outside the Society. As with medicine itself, the scope is almost limitless—from the clinical anecdote to the latest synthetic molecule, from health service politics to hermeneutics, from bronze age archaeology to art in hospitals. Our guiding principle is that good specialists read outside their specialty. Solemnity is not compulsory.

For scientific work we offer a brisk review process, and can publish high-priority papers 6–8 weeks after acceptance, correspondence and meeting reports in as little as 3; thus, we attract good papers by offering an efficient service to authors. Our prime responsibility, however, is to the readers. If you are thinking of submitting a paper, please bear in mind that our readers come from the world over, from many specialties and some from none. Whereas in a specialist journal you may be writing for colleagues with shared knowledge (and jargon), in the *JRSM* you seek to engage wider attention. Do not be too proud to explain complexities; say why your message is important; and be brief.

With these provisos, we welcome your contributions—whether original papers, reviews, opinion pieces, or whatever. If your article stems from a meeting of one of the Society's Sections or Forums, it should be submitted to Professor Tim David, Proceedings Editor, *JRSM*, Booth Hall Children's Hospital, Blackley, Manchester M9 7AA (Tel: 0161 741 5536; Fax: 0161 795 7542); on the title page please indicate when and where the meeting took place. All other items should be sent to Dr Robin Fox, Editor, *JRSM*, Royal Society of Medicine, 1 Wimpole Street, London W1M 8AE (Tel/Fax: 01892 853520). The following paragraphs offer hints on preparing and submitting material to the *JRSM*. Both of us stand ready to help at every stage in the genesis of an article, from the gleam in the eye to the final proofs. Call us or write.

PRESENTATION AND SUBMISSION

Prepare your paper according to the 'Vancouver Style' (Uniform Requirements for Manuscripts Submitted to Biomedical Journals. *BMJ* 1991; **302**: 338–41). We do not follow this exactly, but we will make the necessary adjustments. Take particular note of the passages on authorship, redundant publication, and ethics. Use generic names and SI units (with the usual exceptions such as blood pressure in mmHg and haemoglobin in g/L). Send four copies of the text, double-spaced; we ask only two copies of glossy figures.

The *covering letter* is important. To help the editors in their preliminary evaluation, please indicate why you think the paper suitable for the *JRSM*. We advise you to look at some recent issues, to see whether the subject has already been covered. If your paper should go on the fast track, let us know.

Be sure to supply the *signatures* of all authors, who should meet the criteria specified by the Vancouver Group (see above).

Declare any financial or other factors that might be perceived (by anyone) as a source of bias; funding should always be stated publicly, but *conflicts of interest* range from the serious to the trivial, and not all have to be aired in print—the editors will advise.

Another matter that may be debatable is *redundant publication*. If in doubt, give us the facts—about any overlap with other material in print or in press. You should also supply written *permission* to reproduce material from other publications and, where a patient might be identifiable, we need permission from that patient or his or her representatives.

Finally, indicate who is the *corresponding author* and where he or she can be contacted.

GUIDELINES ON LENGTH

If a paper is too long, too technical, or over-referenced but otherwise attractive, our response will be to negotiate rather than refuse. We refer you to the opening remarks about readability and brevity. The *JRSM* is not the place for great lists of references (for a full paper, 40 should suffice). Here are some lengths not to exceed, unless there is good reason:

Issues of the day — 3 pages
Review articles — 4 pages
Original articles — 4 pages
Historical reviews — 4 pages
Personal papers — 2 pages
Case reports — 1.25 pages
(not more than 6 references)
Letters — 0.3 page

One page of undiluted text is about 1000 words, and you must then allow for headings, figures, tables and references.

EDITORIAL REPONSES

For articles, but not letters, we acknowledge receipt. The editors do a preliminary screen to eliminate submissions that are clearly unsuitable; and the remaining science-based articles, either original or review, are sent for peer review. Some material, naturally, is published without external review—commissioned editorials and book reviews, and letters (which, when accepted, usually go into the next issue).

PROOFS AND OFFPRINTS

For most contributions, proofs will be despatched to the corresponding author before publication. Occasionally, with letters, there may not be time. When an article is published, 25 offprints are supplied free of charge and are despatched approximately 3 weeks after publication. An order form for additional offprints will have been sent with the proofs.

THE ROYAL SOCIETY OF MEDICINE LIBRARY

The Royal Society of Medicine

LITERATURE SEARCHES

Our experienced Search and Enquiries Team provide a full literature searching service, including regular search updates. They have access to a wide range of biomedical and bibliographic databases including Medline, Embase, Psycinfo, Toxline and Biosis.

DOCUMENT DELIVERY

The Library provides a comprehensive document delivery service, with requests supplied by post or fax. Copyright cleared photocopies can be supplied if required.
Photocopy requests are dispatched according to the following deadlines;
Premium Service - within 2 working days (available to RSM fellows and Library Individual and Corporate members)
Standard Service - within 10 working days

REMOTE ACCESS

The Library's services can be accessed by;

Post: 1 Wimpole Street, London, W1M 8AE
Telephone: 0171 290 2940
Fax: 0171 290 2939
E-mail: Library@Roysocmed.ac.uk
